The Premier Difference is Quality!

Premier Kites stands out as a leading authority in the world of kite craftsmanship for several compelling reasons. Our dedication to preserving the dwindling art of back-cut appliqué manufacturing sets us apart, embracing a meticulous process that infuses each kite with a unique touch of craftsmanship and visual impact. This technique creates a breathtaking stained glass effect in the sky, saturating the kite with rich, vivid colors like no other.

**Preserving
Traditional
Back-Cut
Appliqué**

A Kite to Suit Every Taste

Collaborating with a diverse pool of artists, Premier Kites also offers a dazzling array of printed designs that are nothing short of spectacular, ensuring there's a kite to suit every taste. Our collection spans a vast range of themes and patterns, making Premier the leader in compelling choices compared to any other manufacturer in the marketplace.

Each Kite is Rigorously Tested

Our commitment to excellence goes beyond aesthetics—every Premier kite platform undergoes rigorous flight testing to guarantee it's not just a work of art, but also one of the finest flying kites in the world. When you choose a Premier Kite, you're not merely embracing a pastime, you're elevating it to an art form, where beauty and functionality converge to create a remarkable, awe-inspiring experience.

Premier's Coloring Kites are based on one of our most stable designs and feature bold themes that are enjoyable to color and beautiful to fly. Some designs include background colors that are already pre-printed so anxious artists can finish their masterpieces for fast flying fun. All kites feature long flowing tails that can also be custom colored. A set of eight crayons are provided; most markers will also work for coloring.

Please note, some of our 30" Diamonds/Large Easy Flyers come with Compact Packaging. This exciting feature allows a large kite to be folded down to a much smaller package for travel and shipping. Although the kites come to the dealer in a convenient small package, the carrying case also unfolds to a full size case so customers can pack the kite in the traditional size and therefore all that is needed for flying is a simple insertion of the cross strut.

See the  symbol that denotes Compact Packaging.

Large Easy Flyers

Large Easy Flyers

Size (w x h)	46 x 90"/117 x 229 cm.
Wind Range	5-18 mph
Fabric	Polyester
Frame	Fiberglass
Packaging	Fabric case with color header
Line	Includes 300' of 30# test line & winder

Please note, some of our 30" Diamonds/Large Easy Flyers come with Compact Packaging. This exciting feature allows a large kite to be folded down to a much smaller package for travel and shipping. Although the kites come to the dealer in a convenient small package, the carrying case also unfolds to a full size case so customers can pack the kite in the traditional size and therefore all that is needed for flying is a simple insertion of the cross strut.

See the  symbol that denotes Compact Packaging.

Zephyr Kites

Zephyr Kites

Size (w x h)	64 x 165"/163 x 420 cm.
Wind Range	4-20 mph
Fabric	Polyester
Frame	Fiberglass
Packaging	Fabric case with color hang tags
Line	Includes 300' of 50# test line & winder

Premier's Zephyr kites feature bold and bright contemporary graphics on a large and well proven platform. The kite includes a versatile case that allows it to be fully broken down for travel or partially broken down on site. Big, stable and a true joy to fly, these kites can support many types of small windsocks, spinners and accessories on the line.

*44278, 44292, 44277, 44293 and 44275 do not feature Zephyr style compact packaging.

56" Flo-Tail Deltas

56" Flo-Tail Deltas

Size (w x h)	56 x 172.5"/142 x 438 cm.
Wind Range	6-20 mph
Fabric	Polyester
Frame	Fiberglass
Packaging	Vinyl case with color header
Line	Includes 300' of 50# test line & winder

The Flo-Tail design gives you all the superb light wind capability of a regular delta combined with rock steady stability in higher winds due to their long flowing tails. The tails are sewn from a special super-soft fabric that looks like flowing water when it connects with the wind. The 56" Flo-Tail sports a 12' tail and the 6.5' version has a 24' tail. With their long and impressive waving action, these beautiful kites can be seen for miles.

Wind Range	5-20 mph
Fabric	Polyester
Frame	Fiberglass
Packaging	Fabric case with color hang tags
Line	Recommended 90# test line

9 foot Deltas are a great gateway to great fun and more serious kite flying. With nice lifting capability for small line décor, these larger kites are very easy to fly in a very wide wind range. Our newer models come with a very convenient feature – they break down for travel and come with a beautiful bag for either full or partial disassembly.

Packaging	Fabric case with color hang tags
Line	Recommended 150# test line

11' Deltas feature high quality old school detailing that will give you years of flying enjoyment. Extended cross strut pockets, forward-sleeved spine placement, and multiple reinforcements make these kites second to none for large delta kites. The kite has three accessory loops that can handle almost any towing option, including our big 100' Tube and Transition Tails.

Frame	Sky Shark wrapped carbon p200/p300
Weight	325 grams/11.5 ounces
Packaging	Deluxe sport kite case
Line	Includes 80' of 150# test spectra line with winder and straps

The Widow Pro Classic has the newest technological updates in sport kites today. Why the Classic? It is still based on the original design and original graphic. The Widow Pro Classic still has a bit of the old school feel that is extremely precise and yet easy for the average person to learn any of the new tricks as you advance in your flying. The Widow Pro Classic has great balance and uses the latest in Sky Shark wrapped carbon tubes. The redesigned nose & bridle has taken this kite to the next level and makes it so much fun to fly. Designed by Jon Trennepohl and Wayne Brunjes.

Speedy Winders

The Speedy Winder is an excellent reel device especially made for kite flying and includes some very useful features. Molded from high-impact ABS plastic, these reels have built-in ball bearing steel raceways for smooth low-friction operation. A pivoting heavy gauge steel line guide helps keep retrievals swift and tangle-free. Comfortable grip and large handle are a joy to use and an integrated dead bolt locking mechanism allows for relaxed and secure parking at any altitude.

6' LED Tail Lights

What a bright idea! Premier now offers a simple lighting kit that will work on almost all sizes of kites. Our Tail Lights are light enough to install on many entry level Deltas, Parafoils and even Sport Kites. They also look great in pairs tied to the wingtip streamers of Easy Flyers. With 17 bright LED lights embedded in a glistening silver sheer fabric, they are both functional as a stabilizing device and spectacular at night. Takes common CR2032 batteries with a burn time of over 30 hours continuous use.

Transition Tails

Premier Kites was delighted to have worked with the original inventor of the Transition Tail, Scott Spencer. The world-acclaimed kite artist and friend to many kite enthusiasts, Scott Spencer has left a wonderful legacy and is greatly missed.
