

Step 1

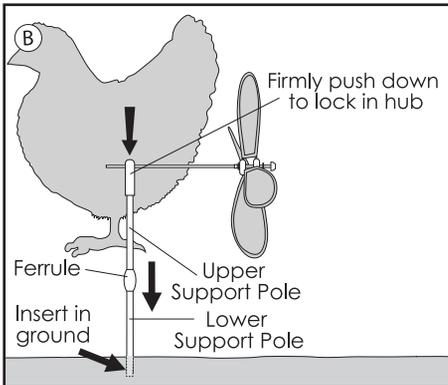

Slide one Nylon Washer onto the Horizontal Axle.

Step 2

Slide on Wings and second Nylon Washer. Attach End Cap. Please note that the end cap needs to be pushed on the rear of the axle with some force.

Step 3

Slide narrow tip of Upper Support Pole into Hub and firmly push until it locks into place.

Step 4

Connect Upper Support Pole with Lower Support Pole and stick spinner in ground.

PLEASE NOTE: *It is recommended that you take your Petite Spinner inside during storms and harsh weather to preserve its durability.*
