

5 ft. Shark kite

- easy to fly and assemble
- 41 x 60 in / 104 x 152 cm

PREMIER KITES

BLACK SHARK

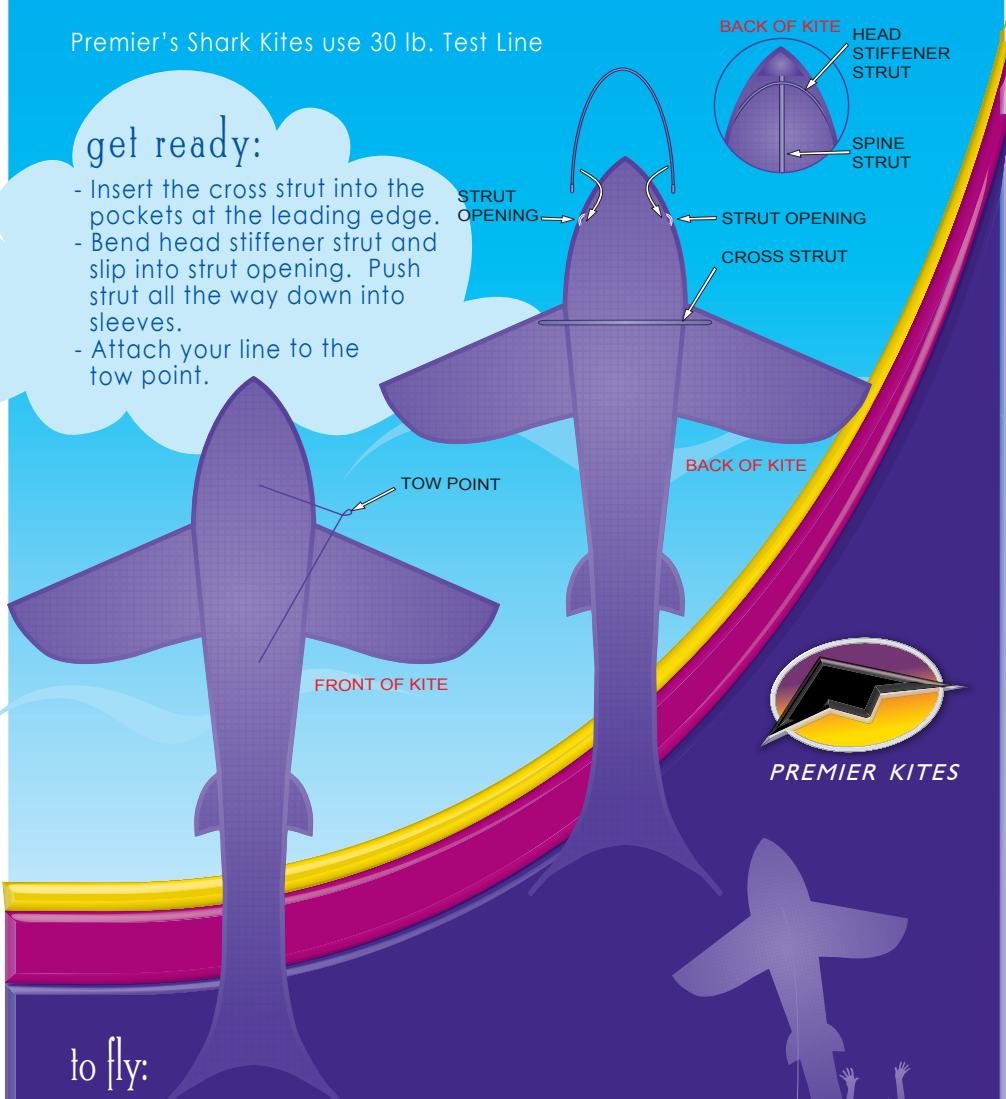

Wind Range: 5 - 18 mph

Premier's Shark Kites use 30 lb. Test Line

get ready:

- Insert the cross strut into the pockets at the leading edge.
- Bend head stiffener strut and slip into strut opening. Push strut all the way down into sleeves.
- Attach your line to the tow point.

to fly:

Have a friend stand about 75 feet downwind from you and hold the kite with its nose pointed towards the sky. As the wind catches the kite, signal your friend to release it while you steadily pull in line until the kite is aloft. As the kite flies upward, slowly release more line.
